

# The CAT-ACT beamline for catalysis and radionuclide research at ANKA

## Opening Workshop – 20-21 September 2017

KIT Campus North – Eggenstein-Leopoldshafen, Germany

FMB Oxford

## Invitation to attend

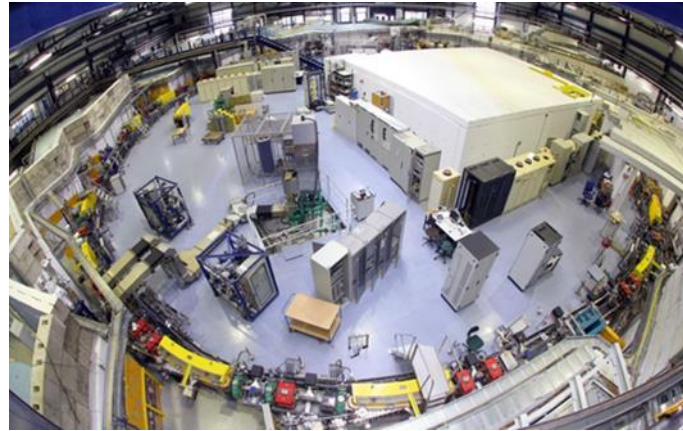

### *The CAT-ACT beamline for catalysis and radionuclide research at ANKA*

**Opening Workshop, 20-21 September 2017**

A two day workshop covering research activities and access possibilities at the new CAT-ACT beamline – jointly operated by KIT institutes ITCP/IKFT for CATalysis research and INE for ACTinide and radionuclide sciences.

#### Topics:

- ANKA – the KIT accelerator research facility and synchrotron radiation source
- Introduction to the CAT-ACT beamline and lab infrastructure
- Presentation of involved KIT/HGF research programs
- Research activities of KIT in-house users and cooperation partners
- Possibilities for beamline access and future research perspectives
- Facility tour

JRC Karlsruhe

#### Venue:

Karlsruhe Institute of Technology – Campus North ([www.kit.edu](http://www.kit.edu))  
76344 Eggenstein-Leopoldshafen, Germany  
ANKA hall B348, seminar room (west entrance)

**Begin:** Wednesday, 20<sup>th</sup> September, 11:00  
(registration at 10:00)

**End:** Thursday, 21<sup>st</sup> September after lunch

Workshop dinner at “Marianne’s Flammkuchen” near KIT Campus North, lunch and coffee breaks will be provided at both days

Participation is free of charge!
